Larry Ladd i hear Bernie forces signy edged out Hillary for the Hispanic vote, that her margin of victory was the black vote (3 to 1!). When it comes to the Hispanic vote in Vegas and Reno, all I have to say is that if you have Dolores Huerta on one side, you probably have James Hoffa Jr. -- and the Speaker of the California Assembly -- on the other.

'Chief Justice [#Cantil-#Sakaue](#) has demonstrated the capacity to bridge ideology on the California Supreme Court. She is smart, principled and articulate. Her balanced opinions are practical, reflecting respect for precedent and appreciation of changing societal values. The court she leads is so nationally distinguished that, along with her, three other California Supreme Court justices – Mariano-Florentino Cuellar, Leandra Kruger and Goodwin Liu – have been mentioned as possible U.S. Supreme Court candidates, too. For all these reasons, Chief Justice Cantil-Sakaue is the ideal person to assume the awesome power of the swing vote on the U.S. [#SupremeCourt](#).'

Few Justices changed the constitutional-law conversation as much as Scalia did, and the possibility of President Barack Obama's appointing a replacement could give the court a majority of Democratic appointees for the first time in more than 40 years, promising a big legal shift in the years to come. But even before the full impact of Scalia's departure can be assessed, his absence is almost certain to change the outcomes of several major cases pending this year before the court, on issues ranging from election law to church and state."

[Mike Pangilinan Robby Tandingan](#) She has a lot of info on significant [#Kapampangan](#) traders in Nueva Espana (not yet "Mexico")

'Although the Filipinos had no problem being called Chínese by their neighbors, a term that they even used to refer to themselves, it was an erroneous practice consonant with the popular and generic thinking that considered the Philippines as being the same as or part of China. Also, it corresponded to the fact that the Filipinos' physical features were not distinct from those of the other Asian residents of the viceroyalty. Perhaps owing to this, sometimes a certain person was specified as chino de Filipinas or indio chino de Filipinas. Although there is no information about the origin of the individual members of the group of Filipinos under study, majority of them were from [#Pampanga](#), a province north of Manila, whose inhabitants Spanish authorities always praised for their capacity to integrate into the colonial system. In this regard, the good reputation of efficiency and loyalty of the Pampango militia may be called to mind.

Some of these Filipinos were closely related by blood, others lived in nearby pueblos and had frequent dealings among themselves, and everyone usually had news about the others. Within this group, there was one residing in Acapulco while the rest had settled in pueblos or were scattered in orchard zones in Colima and Jalisco. In short, all lived in areas near the routes that linked the Pacific coast of the viceroyalty with México City in the interior and with Guadalajara to the north. Colima was situated between México and the port of Navidad. What is truly interesting about the documentation is that it offers a glimpse of how these Filipinos went about their lives within the viceroyalty, giving testimonies of themselves, their social and economic life, their devotions and their relationship with the Mexican populace in whom they appear to be completely integrated.'

Her explanation of the word "chino" though I think is incorrect. It could refer to any non-European who came on the galleons mostly Asians ranging from India to Japan. It also came to refer to mixed "Blasians" in Mexico.
